

As the **President and CEO of [GLOBAL LA](#)**, I am honored to welcome you to Los Angeles. GLOBAL LA is a public-private partnership dedicated to promoting the breadth of L.A.'s diverse business climate around the world and is committed to your success in the region.

Los Angeles is in the midst of a mobility revolution. We are preparing for unprecedented investment in new solutions and technologies that will meet our sustainability goals and prepare the region for the 2028 Olympic and Paralympic Games. There is no better place in the world to operate from with the myriad of opportunities across mobility, transportation, and logistics – and no other place more committed to doing so as part of a Green agenda and an inclusive economy.

From critical infrastructure to world-leading innovations, L.A. is the epicenter of new opportunities:

- L.A. led the passage of the nation's largest-in-history public infrastructure program, Measure M, to fund transit projects in the region indefinitely.
- The City of Los Angeles has committed \$860 million per year to expand the transportation system.
- The twin ports of L.A. and Long Beach are the largest port complex in the Western Hemisphere, supporting 20M+ cargo containers in 2021, and growing. The Port of L.A. is transitioning to zero-emission trucks through the implementation of the first-ever Clean Truck Fund Rate.
- The City of Los Angeles won the \$25 million Electrify America Green City award for zero-emission vehicle infrastructure in the area, which will significantly improve air quality in the surrounding environmentally burdened communities.
- Los Angeles International Airport (LAX), was the fifth-busiest airport in the world in 2021 with 48 million passengers. LAX is in the midst of a \$15-billion capital improvement project that will touch on all nine passenger terminals and build new facilities.
- The L.A. Department of Transportation (LA DOT) operates the most advanced signal system in the country, which will integrate with autonomous technology.

I am thrilled to welcome you during ITS World Congress and welcome a conversation at any time about what L.A. has to offer. I extend an open invitation to you to speak or meet if you will be in Los Angeles or on a future occasion. Please do not hesitate to reach out to me personally - you'll find my email below.

Welcome to L.A.,

A handwritten signature in black ink, appearing to read "Debbie Adler".
